Profile

I am a passionate and results-driven web developer in creating dynamic, user-centric websites and web applications.

Whether it's building interactive web applications, optimizing website performance, or enhancing user experiences, I am committed to delivering excellence in every project I undertake.

Education

Bachelor Computer Engineering
University of Thessaly, Lamia, Greece

Sep 2017 - Feb 2023

Employment

Web Developer (Internship)

Nov 2021 - Apr 2022

Eydap, Athens, Greece

- **Acquired in-depth knowledge of industry best practices** through close collaboration with Eydap's highly skilled developers. This included regular code reviews, mentorship, and knowledge sharing, leading to significant skill growth.
- **Designed and developed high-performance, responsive, and visually appealing websites** for a variety of clients and projects. Notable achievements include optimizing website load times by 20% and consistently receiving positive feedback from clients for the user-friendly designs.
- **Played an active role in team meetings and creative brainstorming sessions**, fostering a collaborative and innovative development environment. Contributed ideas that led to the successful implementation of several features, resulting in improved user experiences and increased user engagement.
- **Took on the responsibility of overseeing and maintaining web-based applications**, ensuring they consistently aligned with the company's strategic objectives. This involved regular updates, security enhancements, and performance optimizations, contributing to improved application stability and customer satisfaction.
